BIRRA PASTURANA

Category: Brewery
business description: Birra Pasturana is worth a visit: a microbrewery, shop and a beer museum with thousands of colorful cans, bottles, signs, glasses and coasters, all related to the beer world. The outlet sells the beers produced, metaphorically called Filo, as safe threads to follow to travel without losing your way in the maze of beer. There will be Filo di Arianna, a fruity and spicy lager; Filo Doppio, with a full and complex flavor; Filo di Fumo, coppery-colored beer with a smoky aftertaste; then the amber-colored round and malty flavored Filo Malpelo; Filo da torcere, a very drinkable summer lager and Framboise, a semi-acidic raspberry-flavored beer.
