Casa Anna

Category: Holiday rentals
business description: Casa Anna, “bee House”, is a 16th century farmhouse in Ponzone on the Monferrato Hills.
It is split into 2 apartments with a large garden, perfect for relaxation, with deckchairs, hammocks, gazebo and barbecue table. The garden looks onto the Erro Valley, one of the most breathtaking views of the area.
Ponzone is a small village at 625 meters above sea level, so the summers are hot with delightfully cool evenings.
During your stay, it is possible to visit the nearby honey production site, with a small exhibition area, and the magnificent saffron fields with their intense purple colour.
The website is already in English and Italian.
